TouchTapTM

compact counter tap system

ONE TAP, FIVE FUNCTIONS

the only touchscreen tap of its kind

Indulge in the pinnacle of sophistication and advanced technology with the **Quatreau TouchTapTM**, a multifunction tap that surpasses all others in both style and functionality. Immerse yourself in a world of unrivaled luxury as you experience the perfect fusion of exquisite design and cutting-edge features.

At the heart of this remarkable tap lies its state-of-the-art touchscreen control panel, granting you effortless control over a plethora of water options. With a simple touch, you can delight in the pleasure of instant boiling, chilled, sparkling, hot, and cold filtered water, all readily available at your command. Imagine the convenience of having a comprehensive water station right at your fingertips, empowering you to effortlessly cater to your every hydration need.

Safety is paramount with the Quatreau TouchTapTM, as it comes equipped with a host of built-in safety features and thermostatically controlled temperatures. You can enjoy peace of mind knowing that your loved ones are protected from accidental scalding and other potential hazards, while still relishing the luxury of precisely heated water.

Beyond its unparalleled functionality, the Quatreau TouchTapTM transforms your entire kitchen experience. Say goodbye to the mundane rituals of kettle boiling and the wastefulness of single-use plastic bottled water. This exceptional tap not only streamlines food and drink preparation but also simplifies hand and dishwashing, reducing your reliance on traditional appliances and promoting an eco-conscious lifestyle.

Elevate your home to new heights of sophistication and efficiency with the Quatreau TouchTapTM. Its flawless design, advanced technology, and commitment to sustainability make it the ultimate choice for those who seek the perfect harmony between style, convenience, and environmental responsibility.

Experience the epitome of modern living with the Quatreau TouchTapTM and revel in the remarkable transformation it brings to your kitchen. Embrace the future of water dispensing and immerse yourself in a world where luxury and sustainability intertwine seamlessly.

TouchTap™

The **Quatreau TouchTap™** is an exceptional and versatile system designed to elevate your experience in the kitchen or any other space. One of its outstanding features is its seamless integration into a standard 600 mm (24") cabinet. This convenient sizing allows for easy installation, ensuring that it effortlessly becomes a part of your existing setup.

Moreover, the **Quatreau TouchTap™** comes with a ventilation duct that is specifically included to facilitate kick space installation. This feature enables efficient airflow and ensures that the system operates optimally, providing you with the best possible experience.

In addition to its user-friendly design, the Quatreau TouchTap™ is remarkable for its low energy consumption. By incorporating energy-efficient components, this system promotes sustainability and minimizes its environmental impact. You can enjoy the benefits of a high-performing water system while being conscious of your energy usage.

Operating the Quatreau TouchTap™ is effortless, thanks to its easy-to-use push-button control interface. With a simple touch, you can select the water temperature and type you desire, providing you with immediate access to your preferred refreshments. Additionally, the control panel incorporates a built-in safety feature, prioritizing your well-being and peace of mind.

ENHANCE YOUR WATER EXPERIENCE

G500 REVERSE OSMOSIS SYSTEM

Elevate your TouchTap™ experience by combining it with the high-performance AquaWave™ Pro G500 advanced continuous flow reverse osmosis system.

This powerful duo ensures a continuous supply of clean, fresh, and great-tasting drinking water while effectively eliminating unpleasant taste, odor, chlorine, and contaminants. The G500's exceptional water recovery rate exceeds the ASSE 1086 efficiency standard, providing efficient and reliable water purification.

With a flow rate of 400 gallons per day (GPD), the G500 delivers a steady and abundant supply of purified water. Its compact and elegant design maximizes under-counter space, making it a versatile addition to homes, offices, or restaurants. The G500's sleek appearance adds a touch of sophistication to any environment.

Upgrade your water purification system today with the G500 advanced continuous flow reverse osmosis system and enhance your TouchTap™ experience. With its outstanding features, including a high water recovery rate, ample flow rate, compact design, modular filtration system, and cost-effectiveness, the G500 offers unmatched performance and convenience. Enjoy the direct access to clean and refreshing drinking water that the G500 guarantees.

ONESTOP+ ANTI-SCALE SYSTEM

The OneStop+™ system protects from scale formation on internal and external plumbing surfaces. The OneStop+™

Anti-Scale System, is your ultimate solution for tackling scale formation and heavy metals in your plumbing. Say goodbye to those pesky build-ups and enjoy cleaner water throughout your home. This system can be easily installed at the point of entry, treating both hot and cold water, or positioned just before specific water-using devices that need protection from hard water.
